Summary

Greetings,

I'm Hamid, and my professional journey began at Cadet College Chakwal, where I completed my matriculation. After that, I dived into the world of digital marketing. Over a year, I sharpened my skills and gained three years of hands-on experience.

Building on this background, I decided to shift my career focus to software engineering. Currently, I'm deeply engaged in formal studies in software engineering. I'm approaching this path with dedication and enthusiasm.

Best regards,
Hamid

Education

Aptech Pakistan
Software engineering , Software Engineering
Apr 2023 - Apr 2026
At Aptech Pakistan School, our Software Engineering program stands as a beacon of cutting-edge education in the realm of technology. With a commitment to fostering skilled and adept software professionals, we offer a comprehensive curriculum that blends theoretical knowledge with practical expertise.

Our program is designed to equip students with a deep understanding of software development principles, coding languages, and the intricacies of designing efficient and user-centric software solutions. Through hands-on projects, real-world simulations, and industry-aligned coursework, students are empowered to tackle the complex challenges that modern software engineering presents. Experienced and dedicated faculty members, who are themselves seasoned professionals in the field, guide students through their educational journey.
